Chronic Disease Management

Chronic Disease Management Referrals:

- Lifeshape Clinic accepts CDM Referrals
- An CDM Referral enables a client to see an Allied Health Professional (Dietitian, Exercise Physiologist, Psychologist) for a maximum of 5 times per year. Portions of these consultations are then claimable through Medicare.

The Chronic Disease Management (CDM) Medicare items on the Medicare Benefits Schedule (MBS) enable GPs to plan and coordinate the health care of patients with chronic or terminal medical conditions, including patients with these conditions who require multidisciplinary, team-based care from a GP and at least two other health or care providers. The items are designed for patients who require a structured approach to their care.

A 'chronic medical condition' is one that has been or is likely to be present for at least six months, including but not limited to asthma, cancer, cardiovascular disease, diabetes mellitus, musculoskeletal conditions and stroke.

Whether a patient is eligible for CDM services is a clinical judgement for the GP, taking into account the patient's medical condition and care needs, as well as the general guidance set out in the MBS.

Maximum No. of Consultations	Rebate Given for LSC Services^	Total Rebates^
5	\$52.95	\$264.75

^ Medicare rebates are subject to change, rebate figures correct as at 17/08/17.

* This information is to be used as a guide only. Clients must speak to their GP directly to determine if they are eligible for an CDM Referral Guide last updated on 17/08/17

*Medicare Safety Net

Thresholds as at 17 August 2017

	Threshold amount	Who it is for	How it is calculated	What the benefit is
Original	\$453.20	All Medicare cardholders	Based on gap amount	100% of schedule fee for out-of-hospital services
Extended concession and FTB(A)	\$656.30	Concession cardholders and families eligible for FTB(A)	Out-of-pocket costs	80% of out-of-pocket costs or the EMSN benefit cap for out-of-hospital services
Extended general	\$2056.3	All Medicare cardholders	“ “	“ “

What out-of-hospital services are covered?

Some examples of services where costs count towards the Medicare Safety Net are:

- GP and specialist consultations
- blood tests
- CT scans
- pap smears
- psychiatry
- radiotherapy
- tissue biopsies
- ultrasound
- x-rays.

*** This information is to be used as a guide only. Clients must speak to Medicare directly to determine if they are eligible for the Medicare Safety Net Guide last updated on 17/08/17**

What are the benefits?

Once you reach a Medicare Safety Net threshold, visiting a doctor or having tests may cost you less.

For example: if you reach a threshold and then visit your doctor who charges you \$65.00 for a standard consultation, you will receive your Medicare benefit of \$34.30. You will also receive 80 per cent of your out-of-pocket costs $((\$65.00 - \$34.30) \times 80 \text{ per cent})$, giving you an extra \$24.60. So in this example it will only cost you \$6.10 to visit your doctor. An out-of-pocket cost is the difference between the Medicare benefit and what your doctor charges you.

*Better Access Program

If you feel that psychological factors may be contributing to your weight gain; you may be eligible for additional Psychology appointments through the Better Access Program. Generally speaking, people whose lives are impacted by the following list of conditions may qualify for the Better Access Program:

Generalised Anxiety Disorder

Bereavement Disorders

Alcohol Use Disorders

Mixed Anxiety and Depression

Adjustment Disorder

Depression

Eating Disorders

Drug Use Disorders

Sleep Problems

Body Image Disorders

The above list is not exhaustive: eligibility for the Program is determined by a Doctor. To ascertain your eligibility, please make a 30 minute appointment with your GP or with our Clinic Doctor. Our Clinic Doctor's consultation fee is \$163.35, which must be paid for in full on the day. This fee is fully refundable through Medicare* and must be claimed from Medicare prior to attending any Psychology consultations.

The Better Access Program entitles you to five one hour Psychology consultations. These consultations cost \$190 each and must be paid for on the day. Medicare will rebate \$84.80 - \$124.50 of each consultation fee*.

After attending the initial five consultations, you will need to arrange a 30 minute review appointment with your Doctor. During this time, the Doctor will review your progress and decide if a further five consultations are warranted.

If you have any questions regarding the Better Access Program, please ask your GP, Dietitian or Psychologist; or you can talk to our Client Services Staff.

Please take careful note of the following cancellation policy as it will be enforced: Appointments cancelled within 24 hours of the consultation, or appointments not attended on the day of the consultation, will incur a cancellation fee.

* All prices are subject to change per the Medicare Benefits Schedule.

Better Access to Mental Health Care

* This information is to be used as a guide only. Clients must speak to their GP directly to determine if they are eligible for the Better Access. Program Guide last updated on 17/8/17
